

# Abbott BinaxNOW Rapid COVID-19 Antigen At-Home Test Kit

## Patient Instructions for Use

### TESTING METHOD 2 (without Smartphone or Tablet)

#### Requirements

- Windows or Mac/Apple laptop with a webcam (or a desktop computer with an adjustable/moveable webcam), microphone, and speaker.
- An email address
- An internet connection.

#### Process

- Provide your name, date of birth, and email address to the person handing you a test kit.**
- Take the test kit home.
- Open a web browser (Chrome, Firefox, or Safari) on your laptop or desktop and go to [ohio.emed.com](https://ohio.emed.com)
- Click the START TESTING button on the page.
- Click the CREATE NAVICA ACCOUNT button on the page.
- Create a NAVICA account and remember your credentials (username and password).
- Click the LOGIN WITH NAVICA button on the page and use your NAVICA account credentials you created in Step 6 above.
- Confirm your account and personal information.
- Answer the series of questions to prepare for the visit with the eMed proctor and click CONTINUE. This will begin the testing session with the eMed proctor.
- Provide your name and date of birth to the eMed proctor.
- Follow all directions from the eMed proctor to take the test.

#### Results

- If you do not have a smartphone/tablet and the NAVICA app, you can contact eMed for alternative results delivery at (844) 943-0753.

#### Helpful Hints

- The eMed proctor is not a healthcare provider but is qualified to administer the test and read the results.
- Ensure that you have plenty of space in front of you to use the test kit. The test card must lay flat on a hard surface.
- The eMed proctor will have you adjust your webcam at various times during the testing. You must have a webcam that can be moved (laptop webcams work great – if you have a desktop webcam it needs to be repositionable). The proctor will need to view the test kit on the surface in front of you at certain times and will need to view you (the patient) at other times. For the test to be valid, follow all of the proctor's instructions. For example, the proctor must be able to view the test card during the 15 minutes the test runs or it will be invalidated.
- You will need to scan the QR code on the test card with your webcam at two separate times. Make sure you hold the QR code up to the webcam when instructed. Keep the QR code in the center of the camera and hold it as still as possible.
