MESSAGE TITLE: PERMITIUM ANNOUNCES THE RELEASE OF VITALDIRECTOR FOR GALION CITY HEALTH DEPARTMENT IN OHIO.

Message:

Permitium is a leading provider of cloud-based software for Vital Record offices around the country focused on Extending Government Services to Communities. Today, April 19, 2021, Permitium is announcing that Galion City Health Department in Ohio is now utilizing VitalDirector. VitalDirector offers the citizens of Ohio the ability to manage the processing, payment, and issuance of birth and death certificates online. Olivia Roston, Vital Statistics Registrar with Galion City Health Department, implemented the self-service convenient option to citizens this month. "We have partnered with Permitium to give Galion City a fast, easy, and affordable way for our citizens to request certified copies of birth and death certificates online," says Olivia. "The ordering process with VitalDirector ensures statute compliance, accelerates turnaround time, increases security, automates, tracks, organizes, and streamlines Vital Record Ordering for applicants in Galion City.

Permitium's Managing Partner, Matt Solomon, states "I am excited to announce the partnership with Galion City Health Department. I admire the pivot that Olivia made by recognizing the recent demand for their citizens to have the ability to order vital records online. The solution allows citizens to initiate the request for vital records through a common interface for walk-in and online application submissions. VitalDirector aligns with her priority of keeping her staff and citizens safe while providing the best service possible."

Permitium has been partnering with innovative Vital Record agencies since 2009 while currently serving over 42 million citizens across the United States. Today, we celebrate the forward thinking of Olivia and her team, who prioritized the convenience and access to government resources for the citizens of Galion City by implementing VitalDirector. We look forward to a continued and beneficial partnership for years to come.
